

SURVEY

City of Bridgeton Residents

The City of Bridgeton is reviewing the trash container size currently offered to residents and is requesting citizens to provide their opinions to the following questions:

- 1. If a smaller 35-gallon trash container were offered instead of a 96-gallon container, would you want the smaller container, bearing in mind that there would not be a quarterly reduction in the cost that you are currently paying?**
- 2. Would you be willing to pay a reasonable fee, potentially up to \$75.00 for the smaller container?**

Please call 856-455-3230 x 282 or email your response to connerh@cityofbridgeton.com
