

**CITY OF BRIDGETON
WATER & SEWER
CONNECTION AND SUPERVISORY FEES**

SERVICE FEES

1. Installation of 1” copper water service **\$600**

This fee includes a new 1” tap into water main; a 1” copper water line to just inside curb line, new valve at curb line and valve box. All work stated above will be done by employees of the City of Bridgeton Water and Sewer Dept. Permits for any service connection must be obtained at the Water Dept. office prior to work being done.

2. Installation of 4” sewer lateral service **\$750**

This fee includes a new 4” tap and saddle connection at the sewer main, a 4” C.I. (cast iron) or SDR 35 (plastic) sewer lateral to be installed to just inside the curb line. All work stated above will be done by employees of the City of Bridgeton Water and Sewer Dept. Permits for any service connection must be obtained at the Water Dept. office prior to work being done.

SUPERVISORY FEES

Any water or sewer services over 1” (for water) or 4” (for sewer) must be done by an outside contractor. This work must be coordinated by said contractor and management of the Water and Sewer Dept. This work will call for a **\$300** supervisory fee for the overseeing of work being done by contractor.

CONNECTION FEES

There will be a **\$1,200** per connection fee for any new construction water and/or sewer service installation. This connection fee will rise to **\$1,800** per connection fee if service connections exceed 1” (water) or 4” (sewer).

**C.C.U.A. SEWAGE
CONNECTION FEES
NEW CONSTRUCTION**

The Cumberland County Utilities Authority will also charge a fee for any sewer service connection for all new construction. Fees for this will vary by type of construction. A newly constructed single family home will have a fee of **\$2,960**. This permit will be taken out at the City Water Dept. office.
